WORK EXPERIENCE

Senior Developer Dec 2025 – Present
[Codeunderscore Technologies Pvt Ltd.](#) *Bangalore, India*

- Worked on JIRA tickets, delivering accessibility fixes and enhancements while maintaining strong code quality through consistent reviews.
- Coordinated closely with cross-functional teams, handling PRs, merges, and QA handoffs to ensure smooth progress and timely sprint completion.

Software Developer (Freelance) Oct 2024 – Nov 2025
[Workslayr LLC](#) *Lafayette, Louisiana*

- Directed a 3-member development team, providing mentorship in code reviews and bug resolution.
- Actively collaborated with clients to understand requirements, provide technical insights, and ensure delivery aligned with expectations.
- Implemented asynchronous workflows using queues and background jobs to handle large-scale data processing and improve system responsiveness.
- Worked on third party integrations with Stripe, Twilio, and others to enhance the functionality of the platform.

Software Developer (Freelance) Jan 2024 – Apr 2025
[Somayaji Group of Companies.](#) *Bangalore, India*

- Independently handled end-to-end software development including requirement gathering, development, testing and bug fixing.
- Acted as the primary client contact, providing regular updates and ensuring project goals were met.

Software Developer

Froiden Technologies Pvt. Ltd.

Sep 2021 – Jan 2024

Jaipur, Rajasthan

- Contributed to 4 projects, including 2 CodeCanyon best-sellers, delivering core features while consistently maintaining high standards of code quality and scalability.
- Revamped a legacy application by upgrading from Laravel 6 to 10, improving maintainability and scalability, and boosting performance by 20% through optimization of complex queries, removed duplicate queries and refactoring critical code paths.
- Took full ownership as the sole developer on a project, driving end-to-end execution, making key technical decisions, and ensuring faster, high-quality feature delivery within tight timelines.

PROJECTS

Workslayr (SaaS HR, CRM & Project Management)

Oct 2024 – Nov 2025

- Developed a complete order and operations workflow including inventory, shipping, billing, and expense tracking. Also modernized legacy pages and improved overall system usability and stability.

Worksuite Saas (Project Management System)

Apr 2022 – Dec 2022

- Designed an end-to-end purchase system covering vendor management, product handling, billing, and payment processing.

Worksuite (HR, CRM & Project Management)

Apr 2022 – Dec 2022

- Developed multiple business modules including lead management, organizational structure, notifications, and multilingual support to enhance system usability.

Sunshine(Hospital Management System)

Dec 2022 – Jan 2024

- Built core hospital workflows including patient intake, appointment scheduling, and progress tracking to streamline daily operations.

Appointo Multi Vendor (Booking Management System)

Sep 2021 – March 2022

- Contributed to booking management, POS functionality, and reporting while ensuring smooth performance through ongoing improvements.

AWARDS

- Received the 3 Star Performer Award (Quarterly) at Froiden Technologies Pvt. Ltd.

EDUCATION

Bachelor of Technology in Computer Science

Chhattisgarh Swami Vivekanand Technical University

Jun 2016 – Oct 2020

Bhilai, Chhattisgarh, India
